

Bayco Industries Ltd. is a world class manufacturer of road tanker components and accessories.

Bayco tanker products are engineered for dependable, long life service and designed for easy, low cost maintenance. Where possible, modular systems are incorporated with common parts to minimize inventory of repair items. At Bayco's modern, efficient 80,000 square foot plant manufacturing is controlled to assure consistent quality and product performance. Design, casting, machining and assembly are completed under one roof and a single quality program - ISO 9001.
